

Luce, Schwab & Kase Training Schedule

3rd & 4th Quarters 2008

All sessions will be held 9:00 am – 4:00 pm (except where noted) at Luce, Schwab & Kase 9 Gloria Lane, Fairfield, NJ

September 30th: NATE Certification Review & Exam (test on 10/1 9am – 1pm)

Proper preparation is key in achieving NATE certification. This course was designed to translate the knowledge technicians already use in the field into test-taking readiness. By reviewing the basics of electricity, the refrigeration cycle, and troubleshooting, this course is an excellent preparation for the Core, Air Conditioning and/or heat Pump exams.

October 14th: ACCA Manual J V8 AE Edition

Learn to properly perform and document Manual J load calculations and help qualify your customers for residential HVAC rebates.

October 28th: ACCA Manual S (Evening session 4pm – 8pm)

Learn to properly perform and document Manual S calculations, now required for residential HVAC rebate applications.

November 18th: Electricity for HVAC Technicians

Provides the student with an understanding of electricity as it applies to basic HVAC equipment operation. Students will learn how to use diagnostic tools including a voltmeter, ohmmeter and ammeter.
